

Dockets Management Branch (HFA-305)

Docket No. 98N-1265

Food and Drug Administration

5600 Fishers Lane

Rockville, MD. 20857

4751 '99 APR -8 A9:55

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I have tried taking Premarin, Provera, O Men...
synthetic prescription hormones for 5 years with
various problems, one major problem was joint pain.
After doing a lot of research + reading books I found
a pharmacy that would compound natural progesterone
for me. One week after I stopped taking PROVERA my
aching joints improved. The compounded natural hormones
I now take enable me to have a healthier life.
I want the freedom to be able to buy medication
from Women's Health America Group. These people take
the time to talk to me about my health. Most pharmacists
are too busy to take time out for individuals.
If the medication you are taking causes joint pain they give
you more medication to mask the pain instead of changing
the prescription! Large Pharmaceutical companies
only care about profit. They do not care about health!!

Please fold, seal, and mail by March 22
